re: ad valorem property tax (modern feudalism)

Gov. Abbott,

We all know the intentions of the first Special Session to "reform ad valorem property tax" but that is synonymous with "making feudalism more marketable." And that's what the people have been getting, decade after decade; modified feudalism, which always returns to an excruciating position within a 2 or 3 year period.

It's time for the people to win something really big in this state and nation. They have not done so since independence from England and Mexico. America was created to establish religious freedom and prevent the feudal system and the confederacy of the two forms of ecclesiastical and civil tyranny. We have lost half of the whole purpose of America and it could not have happened without great harm to the other.

The Christian church has not been true to its great commission to spread and establish the good news on earth that Christ Jesus has created the Kingdom of Heaven on earth reaching to the ends of the cosmos and has ascended to sit on the throne over it. This is the real NEW WORLD ORDER. But the Church has let others have the whole Kingdom while it watches over an impenetrable spiritual world. As a result, the United States of America has failed to sustain itself and has morphed into something that is repugnant to its original purpose.

In 1933 a president, in a wheelchair, gave up the nation to bankers and allowed the property of every American to be alienated for the security on endless credit from the paper money manipulators in the so-called "Federal Reserve Bank." This was all a fraudulent act which has no real authority and cannot develop a lawful lien that can be enforced.

And now in 2017 there is a governor, in a wheelchair, that can return the property of the people in the State of Texas and therefore lead the whole nation and the states thereof back to the correct relationship between government and the people. In reality, people own property and create the state for the protection of that property and their ownership of it, which cannot be alienated by government for the performance of anything. By one man, all men fell from grace, and by one man, all men are saved. There was Adam then Christ and now Roosevelt and Abbot. Now that makes real history in the Kingdom of Heaven on earth!

Please see my proof that the State of Texas cannot show or obtain a lawful authority to alien the property of the people for the payment of anything to the state at <http://SueIT.org/special-session.pdf> This is the result of two years of judicial appeal culminating the Supreme Court of Texas, where I am presently.
